SB 6167-S by Senate Committee on Ways & Means (originally sponsored by Senators Brown, Snyder, Spanel and B. Sheldon)

Ensuring sound actuarial funding of the state retirement systems.

(AS OF SENATE 2ND READING 6/08/01)

Finds that the funding status of the state retirement systems has improved dramatically since 1989. Because of the big reduction in unfunded pension liabilities, it is now prudent to adjust the long-term economic assumptions that are used in the actuarial studies conducted by the state actuary.

Finds that it is reasonable to increase the salary growth assumption in light of Initiative Measure No. 732, to increase the investment return assumption in light of the asset allocation policies and historical returns of the state investment board, and to reestablish June 30, 2024, as the target date to achieve full funding of all liabilities in the public employees' retirement system plan 1 and the teachers' retirement system plan 1.

Declares that the funding process established by chapter 41.45 RCW is intended to include the following goal: To ensure the actuarial funding of the restated law enforcement officers' and fire fighters' retirement system defined benefit plan, and provide for additional state funding if unfunded liabilities accrue in the future.

Declares that, beginning July 1, 2001, the following long-term economic assumptions shall be used by the state actuary for the purposes of RCW 41.45.030: (1) The growth in inflation assumption shall be 3.5 percent;

- (2) The growth in salaries assumption, exclusive of merit or longevity increases, shall be 4.5 percent;
- (3) The investment rate of return assumption shall be 8 percent; and
- (4) The growth in system membership assumption shall be 1.25 percent for the public employees' retirement system, the school employees' retirement system, and the law enforcement officers' and fire fighters' retirement system. The assumption shall be .90 percent for the teachers' retirement system.

Declares that, beginning with actuarial studies done after July 1, 2001, changes to plan asset values that vary from the long-term investment rate of return assumption shall be recognized over a four-year period. Beginning April 1, 2004, the council, by affirmative vote of four councilmembers, may adopt changes to this asset value smoothing technique. Any changes adopted by the council shall be subject to revision by the legislature.
